

Trading Mentorship Program

We Understand!

According to a research paper published by four professors at the University of California, "Trading is one of the most difficult professions and to remain profitable by trading regularly is even more challenging. Most people who attempt day trading end up with a net loss."

We understand that most of this is because you have not cultivated the right mindset and temperament to succeed in the markets. With the Trading Mentorship Program (TMP), we intend to help you build the right mindset to analyse the market and execute the trades where your mentors will help you at every step of your learning process.

Let us help you to make your path easy towards becoming a successful trader.

Birth of India's First Multi-Asset Trading Mentorship Program

We observed that only a handful of individuals participating in the markets are consistently profitable. Many economic sectors and individual households have experienced pain over the past couple of years, this has compelled traders to find new strategies to mitigate their risks. The widespread use of multi-asset trading strategies was one of the effects of such changes.

Trading across different asset classes typically increases the likelihood of making it through a period of high volatility without suffering a significant loss. We at Elearnmarkets and our Knowledge Mentor Vivek Bajaj realised this is the pain for many who want to explore a career in trading markets.

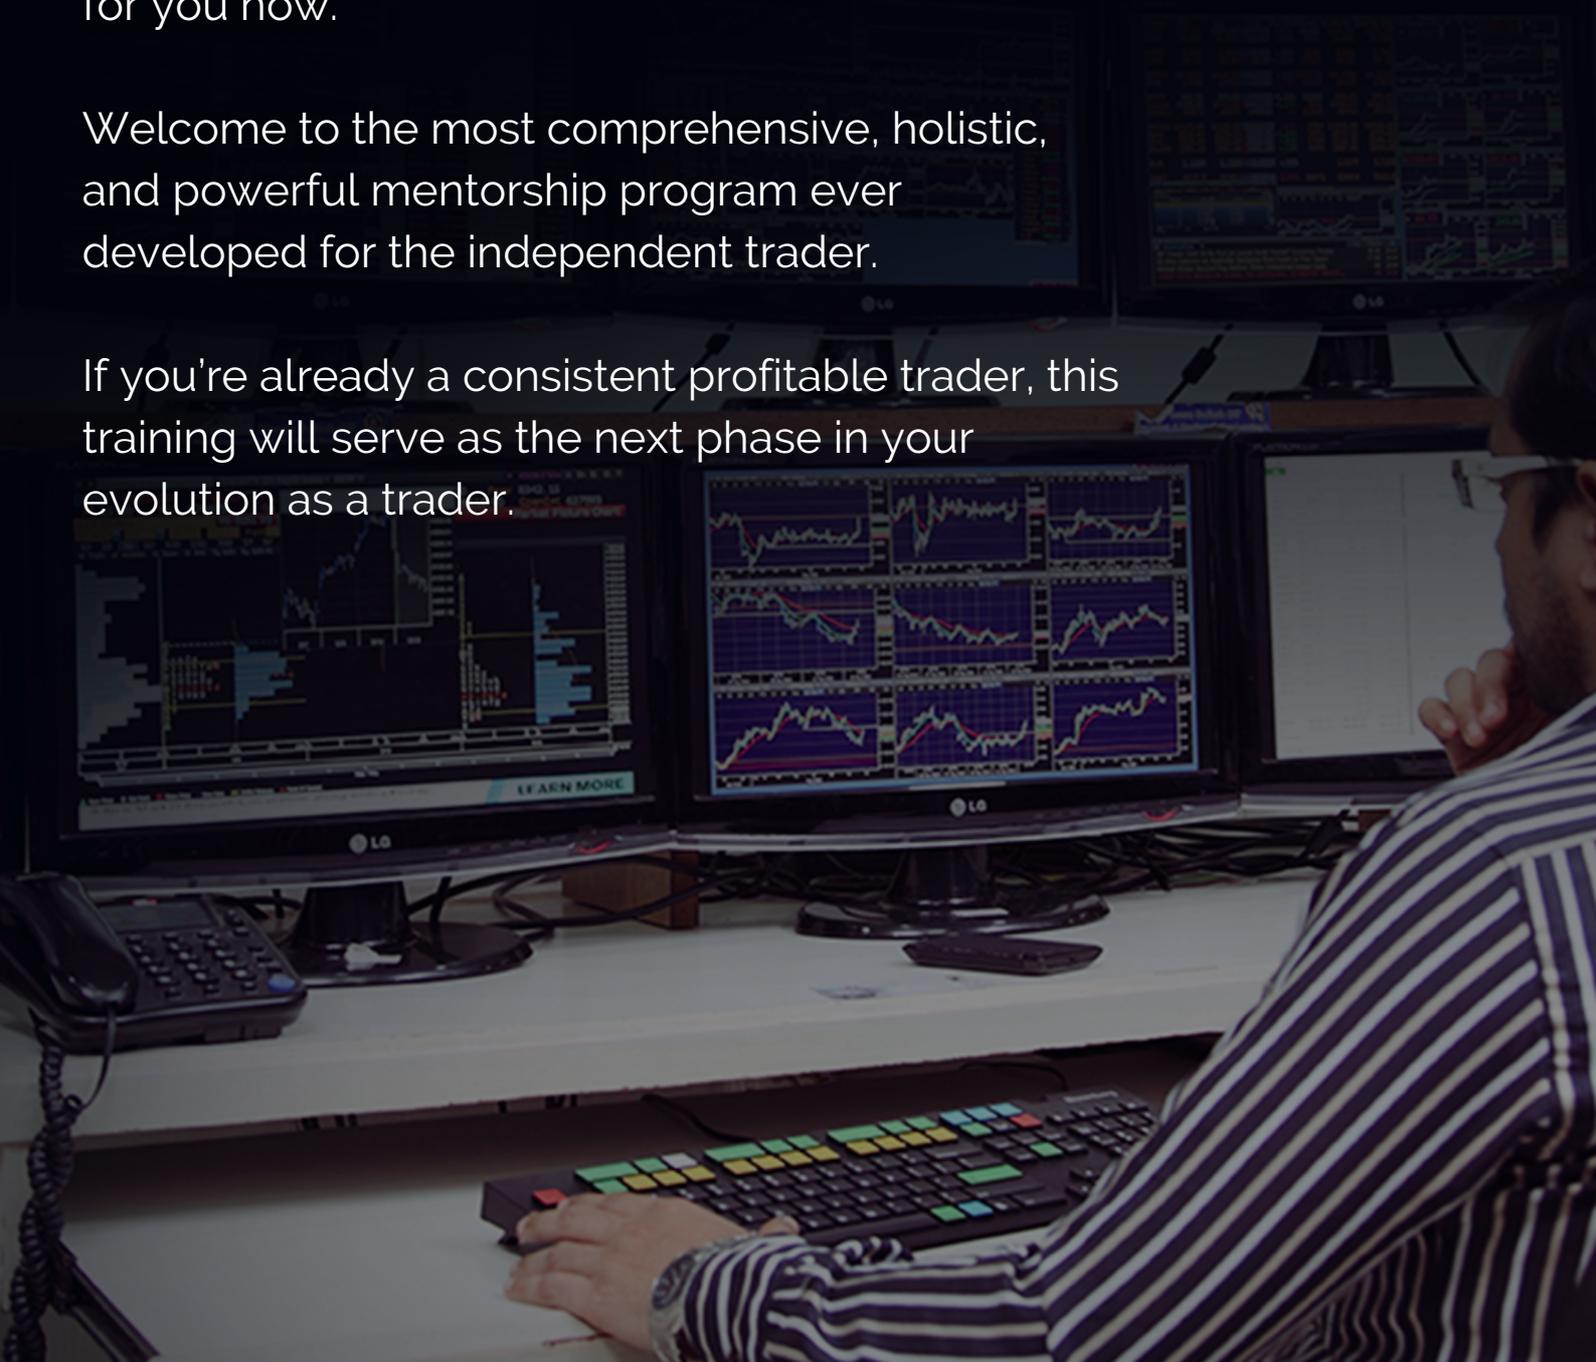

This gave birth to the TMP program.

Is this program really for you?

If you've been a losing trader, getting beaten down by the market again and again, low on confidence and full of doubt, things will change for you now.

Welcome to the most comprehensive, holistic, and powerful mentorship program ever developed for the independent trader.

If you're already a consistent profitable trader, this training will serve as the next phase in your evolution as a trader.

Sneak-peek of Trading Mentorship Program

32 Modules

5 Mentors

3 Associates

9 Live Markets Masterclasses

Regular handholding over
WhatsApp group

Assignments and Homework for
in-depth learning

Why do we call this a mentorship and not a course?

This is not just a regular teaching-learning session. We handhold individuals to become successful traders by helping them build their strategies, trade plans and motivate them to stick to their trading setup with discipline.

This is what only a mentor can do for you.

Your Mentors in the Journey of Trading in Financial Markets

Vivek Bajaj

Knowledge Mentor

Vivek is the co-founder of Kredent InfoEdge, an enterprise involved in simplifying finance for everyone. He has over 17 years of experience in the financial market. Vivek is a qualified Chartered Accountant, Company Secretary, and an MBA graduate from IIM Indore. He began his career as an analyst and moved forward to establish eastern India's largest derivatives Trading Desk employing 150 traders. His sheer interest in technology encouraged him to co-found the Algo trading desk in Mumbai. His passion for data, technology and education, in the last 6 years, has empowered many individuals with the right learning, knowledge, and data analytics through his tech ventures elearnmarkets.com and StockEdge.

“ The art of trading can be learnt. ”

Chetan Panchamia

Options Mentor

Chetan has been in the markets for more than 17 years now. He started from the front office to fundamentals research before moving to the world of technical analysis. He specialises in options trading and is presently a full-time Professional trader focusing on index options - Nifty and Bank Nifty.

“ A professional trader
can trade in any
market conditions. ”

Souradeep Dey

Technical Mentor

Souradeep is an equity and commodity trader with a rich experience of 8 years. He has worked as a Crude Oil Trader for FuturesFirst. He trades in Intercontinental Exchange and Europe. Technical Analysis is his area of interest, with keen involvement in developing trading algorithms.

“ Market psychology can be understood. ”

Kaushik Akiwatkar

Trading Mentor

Kaushik is a Derivatives Trader with more than seven years of experience in trading and investing in the capital market. He has developed a unique way of identifying the index trend and stocks using a noiseless chart - Renko. He has been a Dean of Cresta School of Management, Science & Arts and as Director of Rishihood University before entering the world of Financial Markets.

“

You can master
yourself.

”

Saanando Das

Forex & Commodity Mentor

Saanando is an experienced Global Markets Analyst, Fund Management Professional & writer with hands-on experience in various market segments, namely Non-ferrous metals, Energy, Precious metals, Equity Index, FX, OTC Markets, and Bonds. He completes the team of TMP mentors for a holistic understanding.

“ You can become
a multi-asset trader. ”

What do our mentees have to say about us?

One of the best trading courses anyone can come around; the way everything is explained is so smooth and easy that anyone can easily get it. The best part is constant support from the mentors, which helps even more in clearing doubts and discussing ideas.

The way everything is managed and looked after during the course is excellent; thanks, Agnish, for it. And thanks to all teachers and mentors for making learning interesting and easy. Thank you

-Abhinash Choudhury

This is a comprehensive course on trading. All the Mentors are highly experienced and cooperative specially Chetan sir is a wonderful Guru and a visionary. I would appreciate Mr Agnish for promptly addressing issues and making it a good learning experience. Also, thanks to Mr Pawan, Mr Vinay and Mr Raja for always being there for help.

-Soujanya Holkar

About the course: This course is very comprehensive, and it sums up everything required for you to become a good trader. The mentors are very experienced, available in real-time, and approachable. I will recommend the course to everyone interested in becoming a Full time/Part-time trader. About the Support team: My sole point of contact is Mr. Agnish; he is extremely helpful and attentive. Irrespective of the timing of my text message, I get the response in a few minutes. He is extremely helpful, polite and friendly. I especially remember when his relative was in the hospital, but he still helped me with my queries. Overall, Kudos to the Elearnmarkets team for bringing up such a course and starting a revolution in professional trading in Indian Markets.

-Amul Agrawal
